

Help Your Dog Stay Calm This 4th of July with CBD

Fireworks might be fun for us, but for our furry friends, they can be terrifying. If your dog struggles with anxiety during the 4th of July celebrations, CBD products are a safe, natural way to help them stay calm and comfortable.

Why CBD?

CBD (cannabidiol) works with your dog's endocannabinoid system to support a healthy stress response — helping reduce anxiety, restlessness, and noise phobias.

Our products are:

-  Vet-formulated
-  Full-spectrum, organic hemp
-  Third-party lab tested
-  Easy to administer (topical oils, treats, and more)

Featured Brands

- **NuLeaf Naturals** – Full-spectrum CBD oil crafted for pets. Vet-recommended, organically-grown hemp. Known to ease anxiety, support joints, and promote sleep/rest
- **CBD Dog Health** – Vet-formulated calming oils and treats; designed to gently reduce stress during loud events.
- **Bully Crew CBD** – Oils and treats trusted by dog owners for anxiety relief and behavioral support
- **Pawse** - Oils and Freeze dried treats - Made in USA, Minimal ingredients, filler free
